Discover

DISCOVER - UK - LIVE

Back

About the Course

There are four component parts to the Discovery section of Cappfinity VEE which help you learn more about your Strengths Profile, Values, Preferences and Learning Styles.

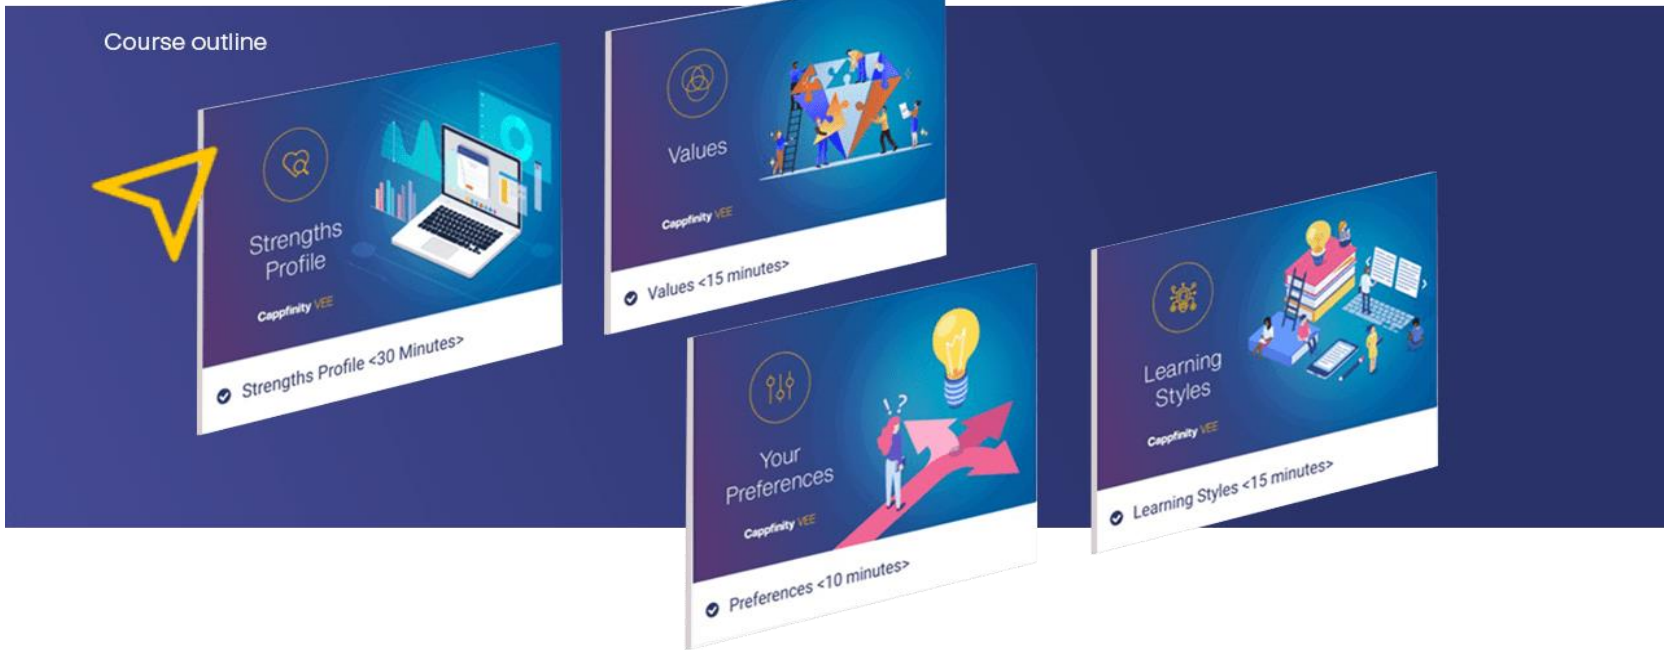

Click on each option below to be taken to a short experience that helps you learn more about yourself and how this insight could benefit you in your search for employment.

The time required for each activity is indicated alongside the title, but you can navigate your way through them and complete them in any order you wish.

Clicking discover will open up this page to assess the four key areas of self assessment

0% Complete

Within Discover, there are four career assessments, strengths, values, preferences, and learning styles

Upskill

Course Outline

Career Readiness

Recruitment Readiness

The upskill page should display two course outlines; Career Readiness and Recruitment Readiness

Career Readiness - UK

Get career ready with 'Career Readiness' to help improve your skills that will be applicable during your application to EY

Learning Path Outline

Collaboration

Cappfinity VEE

○ VEE Collaboration <90 minutes> - UK LIVE

Learning Agility

Cappfinity VEE

○ VEE Learning Agility <90 minutes> - UK LIVE

Personal Responsibility

Cappfinity VEE

○ VEE Personal Responsibility <90 minute UK LIVE

Resilience

Cappfinity VEE

○ VEE Resilience <90 minutes> - UK LIVE

Analysis

Cappfinity VEE

○ VEE Analysis <90 minutes> - UK LIVE

Under Career Readiness, you will have the four learning path outlines to get through which are collaboration, Learning Agility, Personal Responsibility, Resilience, and Analysis

Recruitment Readiness - EY

The purpose of Recruitment Readiness is to familiarise yourself with what the process is at EY in order to familiarise yourself and practise

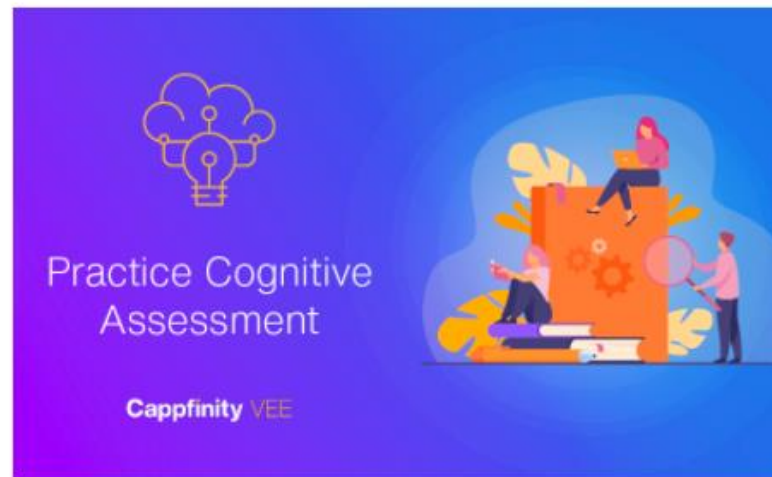

Learning Path Outline

Practice Work Sim

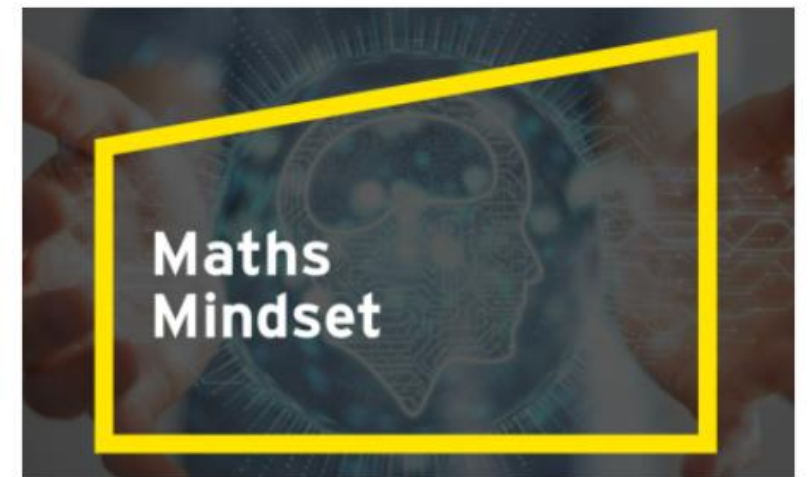

The work simulation is used by EY to understand your strengths and give you an insight about us too

Cognitive Practice Test

The cognitive assessment will enable us a company to understand your decision-making process

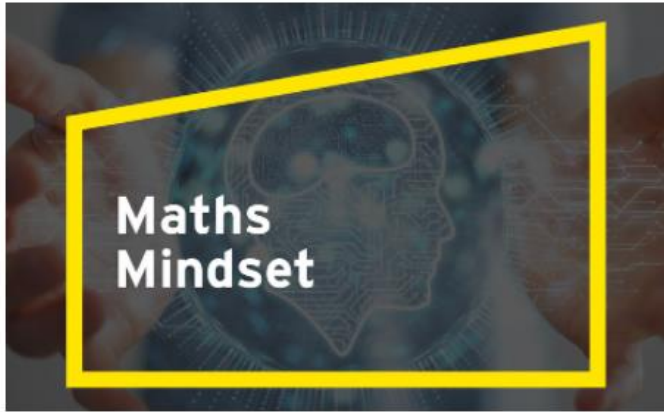

EY Maths Mindset

What better way to build on your skills than practicing numerical based questions

EY Maths Mindset - UK

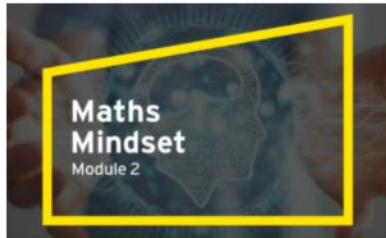

During EY's Maths Mindset, you can expect to complete a series of practice tests to familiarise yourself with what you can expect

Course Outline

Module 1

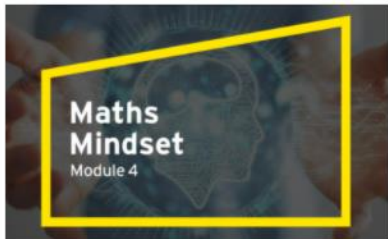

Module 2

Module 3

You will have five modules where each test will require you to engage with different data sources and mathematical functions

Module 4

Module 5

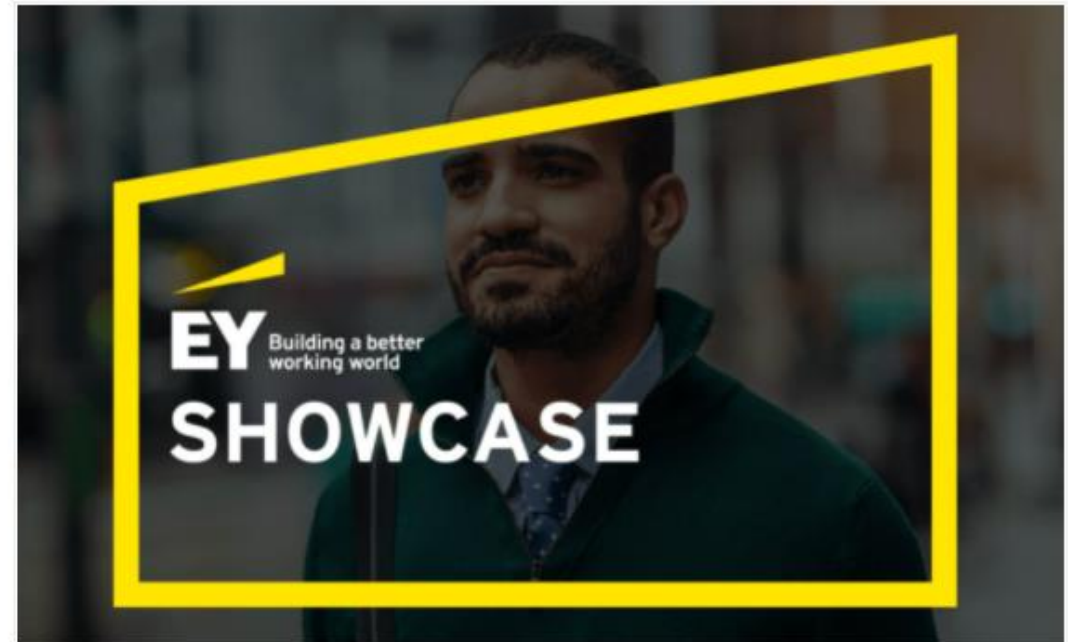

Showcase

Course Outline

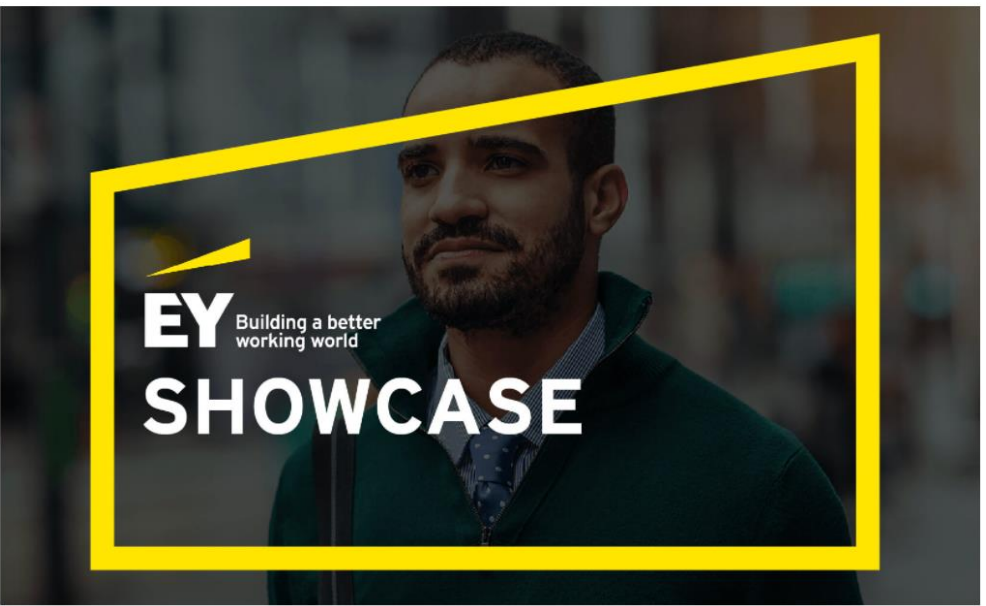

Showcase

EY Showcase

Your screen should now display the VEE showcase and the EY Showcase

The final section of VEE more tailored to EY, will present you with common scenarios in todays modern workplace and your respected response to them

More generically, the VEE showcase will also present scenarios from an objective market-place

Good Luck

EY

Building a better
working world
