

Why EY

Discover our world, your way.

Our world. Your way.

Our world

What if we could all change the world? What if we used our thinking power to outpace technology? What if diversity was a way of life?

At EY, no question is too insignificant, too ambitious or too imaginative.

Why EY

Personalised learning and development

EY Tech MBA

The EY Tech MBA, offered in association with Hult International Business School, is helping our people develop both the mindset and skillset to navigate the challenges ahead.

It's the first-ever fully accredited corporate MBA that is available regardless of role or position and entirely free to all our 300,000 employees in over 150 countries.

A culture of belonging

At EY, your voice matters. By speaking up, you help us build a culture we are all proud of. Where we can aspire to our own version of success - all while feeling a genuine sense of belonging.

For us though, belonging means much more than just fitting in. It means thriving in a place where you're embraced and celebrated just for being you. Where opportunities to grow and develop are within reach, no matter who you are, and what background you come from. Where you're heard and empowered to use your voice and help others find theirs.

Did you know?

At EY, we have 30+ networks and communities which are open to all, including the EY Race and Ethnicity Network, Women in Technology Network and Unity, EY's LGBT+ network.

Don't just fit in. Belong.

Building a sustainable world

We're passionate about tackling climate change, improving our supply chain, advising enterprises on positive change, and creating a healthy and safe environment.

To help build a better working world, EY will be carbon negative in 2021 and net zero in 2025 - help us get there.

The time to act on the climate crisis

Rewards and recognition

You want a career that counts. An experience that challenges you. That rewards performance and ultimately defines your future. That's what's on offer at EY. After all, our success is founded on yours.

Our rewards aren't just about financial rewards; they're about total value. From policies to help you strike a work/life balance that suits you, through to competitive salaries and beyond, we'll make sure your contributions are recognised and rewarded. Examples include:

Two-day volunteering entitlement per year

EY sports teams

Bike2Work scheme

Educational guidance on your finances

Lifestyle discounts for well-known brands

30+ EY networks and communities

What we do

What we do

Did you know?

When you join EY, you'll go into one of our two business areas, either our Financial Services Office (FSO) or our UK and Ireland business. So, what's the difference? Watch to find out more:

Our 300,000 people are brave-thinking, life-long learners who are free to be their truest selves every day.

Working across 150 countries within - Assurance, Consulting, Strategy and Transactions, and Tax, as well as Technology and Actuarial - our teams work at the cutting edge, using emerging technologies, machine learning and more to deliver an outstanding service.

Explore your interests through hands-on experience that puts you at the heart of our business.

Our school leaver, undergraduate and graduate programmes give you the experiences, skills and qualifications to get your career off to a great start.

business needs and available locations. If you already know which of these

Explore our high-performing teams:

- ▶ Assurance
- ▶ Tax
- ▶ Strategy and Transactions
- ▶ Consulting
- ▶ Actuarial
- ▶ Technology

Tax

We help local and global entrepreneurs, high-net-worth individuals and organisations manage every element of their business's tax. Tax has changed more than ever in the past five years. Not only is Tax broader in its operations, but it's also more digital. From bots that do our number crunching to artificial intelligence that inspires our innovations, Tax is no longer bound to Excel.

“

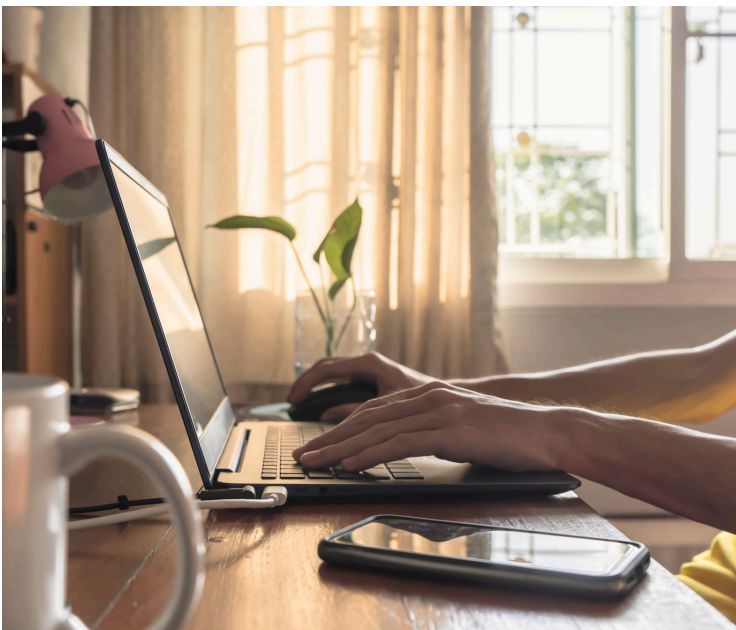

I use digital technology to help design substantive procedures and test transactions across financial accounts. Through this, I provide clients with the assurance that they need, delivering technological solutions to the challenges facing them.

Chantelle
Assurance, Audit

Assurance

Our Assurance teams harness data and globally leading technologies to offer organisations and their stakeholders a clear picture on their performance and risks.

Technology

Technology is essential to the success of our entire business and integral to our ongoing growth and evolution.

At EY, you'll have access to some of the world's most forward-thinking technologies alongside professionals in different disciplines, all working together to make a real impact on the way the world works today.

“

As my career has progressed at EY, I've worked with several clients, projects and gained valuable insights into different areas of cybersecurity and risk management.

Reem

Technology Consultant

Consulting

In Consulting, our purpose of building a better working world is embodied in our mission to transform businesses through the power of people, technology and innovation.

Strategy and Transactions

Economies are fuelled by competitive organisations who buy, sell, merge or restructure parts of their business with others. Our job is to help them do all that while making more informed decisions and building better strategies.

Our advice supports our clients with fast and authentic growth that will reshape their operations, and enable them to bring new products and innovations to market.

“

Over the last year I've been involved in our Tech-Led Transformation team, where I coded a private Blockchain network that automatically processes life insurance claims.

I've also been involved in a wide range of Actuarial-specific projects all whilst studying towards the Actuarial qualification.

Niraj

Risk & Actuarial

Actuarial

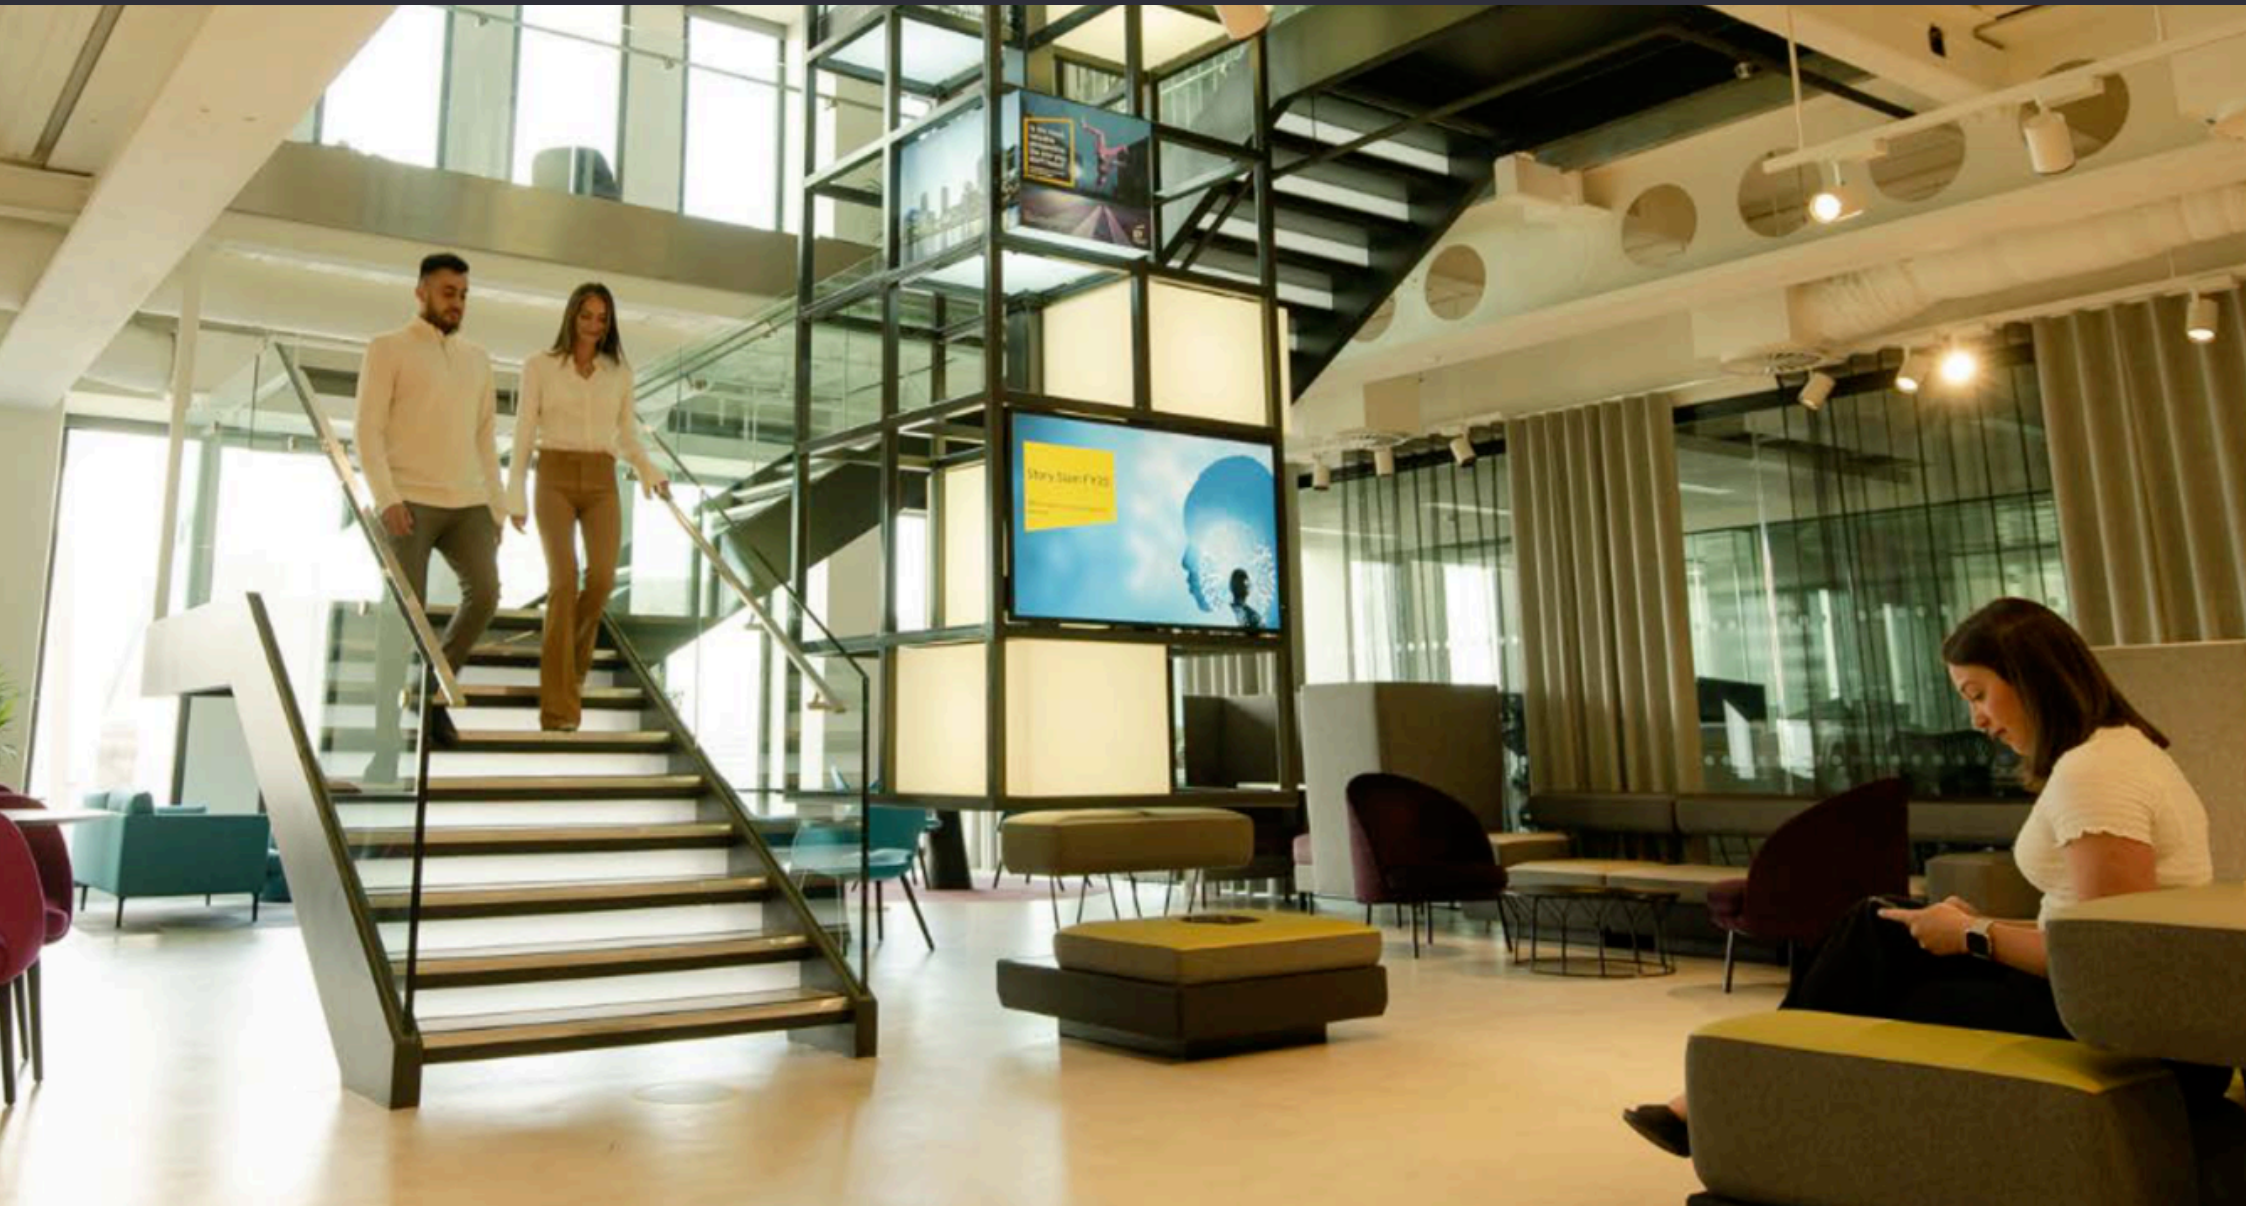

Our fast-changing world can create lots of opportunities for insurance and pensions businesses, but it also creates new risks. We help our clients identify these risks by carrying out complex calculations, asking the right questions, setting priorities and creating action plans for success.
